Proposed Outputs

- Data set of extracted thematic occurrences for a few themes

- Web-based exhibition tool to explore the texts

- Guidelines on how to expand

  - Select more texts

  - Extract more themes

What Is a Concordance?

- An index of all occurrences of each important word in a text

- A tool for examination of language use

- Historically quite laborious

  - Fr. Busa took 34 years to create the Index Thomisticus

    - (And that was with early computing!)

  - Open Source Shakespeare took only a few years
